PowerPoint Exercise 5

Directions:

Interactive Slide Shows and Transitions

- **Open Exercise 03** and do a "File Save-as" and name it **PPTExercise05** and
- **Save it in** your **S: DRIVE** and complete the following:
- After the 1st slide "add a new slide" and create a table of contents slide. Create action buttons on each list to link to the correct slide.
- Set *different* slide transitions for each slide.
- Format the slide show so that it looks nice. You may use backgrounds, colors, fonts, and pictures. You may use custom animation if you have time.
